

EC-12LT TREADMILL

- HIGHLY RELIABLE AND DURABLE
- ALMOST MAINTENANCE FREE
- QUIET OPERATION
- SMOOTH ACCELERATION
- LOW STEP-UP HEIGHT
- SIDE HANDRAILS
- SAFETY STOP-BELT

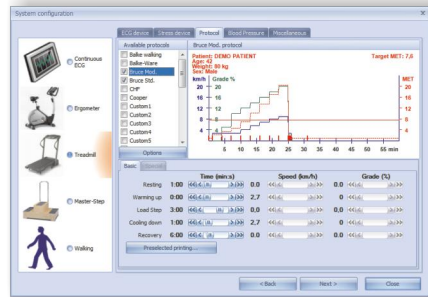

EC-12LT

The EC-12LT Treadmill is the perfect loading device for Stress Test Systems as it is a reliable and durable machine. It can be controlled by many PC-based ECGs once it is connected to a PC. It can be used for stress test examinations and rehabilitation purposes as well. Low step-up height, safety stop-belt, side handrails, quiet operation and smooth acceleration all add to the high usability of this device.
